I am an Informatics Engineering student at Tarumanagara University with a strong interest in information technology and computer education. I have experience developing web and mobile applications through academic projects and possess knowledge of programming fundamentals and digital tools. I am eager to support practical IT lessons, guide students in using technology, and help them develop their technical skills in an engaging and supportive learning environment.

EDUCATION

Universitas Tarumanagara
Informatics Engineering 2024 – Recent

EXPERIENCE

Universitas Tarumanagara
Asisten Mahasiswa **September 2025 – December 2025**

- Reviewed accountability reports and supporting documents for student activities.
- Identified necessary revisions and maintained organized documentation.
- Prepared report recaps and organized activity data using Google Sheets and Microsoft Excel.

PROJECTS

Flutter Payment App
